How To Recreate Lookalike Layouts in InDesign from scratch

This is part 3 of 3 - How To Recreate the newly designed Full Focus Weekly Layout from the Pretty Fabulous YouTube Channel

- Watch the original UNBOXING of today's planner layout >> <https://youtu.be/TdkK6SyHlFI>
- RELATED video: How to create lines using InDesigns >> <https://youtu.be/ciWdA6kusfM>

1a | Open the Daily Layout from Tutorial #2

We'll be using the same Paragraph Styles and look and feel from the Full Focus Lookalike Layout Tutorial #1 DailyLayout and #2 Weekly Layout A. We'll also be copying and pasting some of the items so you'll need to complete that tutorial first - if you're a Planner Academy student, you already have access to this template in the EXTRAS section at the end of the course.

1b | Use the standard Workspace

To see the same tools that I do in the Tutorial, select Window > Workspace > [Essentials]

2 | Add 2 new pages

Window > Pages - Click the Create new Pages icon at the bottom right

3 | Create the Weekly Snapshot - LEFT side

Use the rectangle tool to create the one-page snapshot and the Line tool to create the boxes within it and then use the Type Tool to add in the Weekdays

4 | Format Your Text: change the colors, font, size

This is optional if you want to change how your vertical layout looks from your horizontal layout. You can learn how to create text boxes and other fundamental basics of using Adobe InDesign in the FREE InDesign 101 course
